BIENNIAL REPORT

OF THE

INSPECTORS OF THE ALABAMA PENITENTIARY FROM SEPTEMBER 30, 1878, TO SEPTEMBER 30, 1880.

ALABAMA PENITENTIARY, October 23, 1880.

To His Excellency,

RUFUS W. COBB,

Governor of Alabama:

SIR—In pursuance of the provisions of an act of the General Assembly, approved February 13, 1879, we submit a tabular statement, which shows, in addition to that which was required by the Code of Alabama, the names and residences of all persons hiring convicts to be employed outside the walls of the Penitentiary, separate lists of the names of convicts hired by each person; and also separate lists showing the names of convicts discharged, pardoned, and who have died during the past two years.

The convicts employed outside the walls of the penitentiary are hired under contracts at the price of five dollars per month for first class laborers, and two dollars and fifty cents per month for second class. A third class, commonly known as "dead heads," are hired for the consideration of their support and maintenance. For the purpose of giving more satisfactory information as to the price obtained for the convicts hired out, we append a statement of the accounts kept against each contractor, as found on the books kept by the Warden. These accounts show the number of laborers for whose service a price is paid in money, but gives no information as to the number of "dead heads" employed. From a careful examination of the books here, we find the average of "dead heads" employed outside the prison for the past two years has been forty-five.

For a full statement of the transactions of the Penitentiary for

the past two years, we refer to our recapitulation of these accounts and to the statements brought thereto from the Warden's table of expenses, &c., and to the written report of the Warden.

By the contracts under which convicts are employed outside the prison walls, the employer is required to afford the prisoners preaching at least once each month. So far as we have been able to ascertain by our quarterly inspections, this has been done; and the convicts have been further allowed such other religious privileges among themselves on the Sabbath, and when not employed, as they may have desired. For information as to the moral and religious culture of the convicts within the walls of the Penitentiary, we refer to the report of the Chaplain, herewith transmitted.

Contractors have been required to provide, and have provided, strong prisons for the safe-keeping and comfort of the convicts. These prisons have generally been neatly kept, and we have required much attention to be given to the sanitary regulations of them. Notwithstanding these precautionary measures during the Spring months of this year, there was considerable sickness among the convicts employed in the coal mines at Helena. During the prevalence of this sickness, by order of the Board, two of the Inspectors visited the convicts employed there. They found the sick in a comfortable hospital, with medical attendance, nurses and every thing needed for their comfort. With this exception, the convicts, during the past two years, have been reasonably exempt from disease. The number of deaths reported during the period covered by our report seems large, but when the number of those who have died from accidental causes and from incurable diseases contracted prior to their imprisonment, are deducted, the per centage of death will not, we apprehend, be greater than that of other prisons in the United States. As to the health of the convicts here, we refer to the report of the physician to the Penitentiary herewith transmitted.

We regret that our report shows twenty-six escapes for the two years. We have made every effort to enforce such discipline as we thought necessary to prevent escapes. We are satisfied the contractors have given this subject as much thought and attention as any other matter incident to the employment of convict labor outside the Penitentiary. And while we believe improvement in this direction possible, still we fear that under any system of out-

door labor, escapes will be more numerous than under a system of close confinement.

We have inspected the prisons and prisoners quarterly, during the past two years, and in some instances, when found necessary, have made special inspections. We have in every instance diligently enquired into the treatment of the prisoners, and we now state that during this period the convicts have generally been well clothed and fed, and kindly and humanely treated; and that corporeal punishment has only beeu inflicted in extreme cases.

All the buildings and the walls of the prison have been thoroughly repaired, and are now in good condition, and with the same care now taken will not for a long time require an outlay of money for their preservation.

We call special attention to the written report of the Warden herewith transmitted, and to the matters therein discussed. We think his administration of this institution has been eminently successful. Uniting fidelity with peculiar fitness for the work required, under his administration the State has not lost a debt, order has been established where confusion existed, and we, therefore, think the pride with which he reviews his own work pardonable. Notwithstanding our report shows a decrease of one hundred and fourteen convicts since the first of October, 1878, yet we think under the new contracts now being made, and with adoption of the legislation suggested in his report, the future of this institution is brighter than its past.

We are, very respectfully,

Your obedient servants,

A. G. SIMPSON,
A. T. GOODWYN,
J. H. JUDKINS,
Inspectors of the Alabama Penitentiary.

WARDEN'S REPORT.

To Messrs. J. H. Judkins,

A. G. Simpson and A. T. Goodwyn:

GENTLEMEN—I have the honor, herewith, of submitting this, my first biennial report of this institution, beginning the first of October, 1878, and ending 30th of September, 1880.

I beg to call your attention back to the time I took charge of this institution, when it was almost a total wreck—with rotten and leaking roofs, with dilapidated and decaying walls. You well remember the large appropriations made annually by the legislature for the support and maintenance of its inmates. You also remember the heavy indebtedness, that hung like a pall over it, when Governor Houston came into office in 1874.

Now the buildings have been fully and thoroughly repaired from pit to dome, the old brick yards and quagmires that almost surrounded the buildings have been effectually ditched and drained, and now large crops of vegetables are produced thereon, which are so necessary to the health and maintenance of the convicts. No appropriations are now necessary for its support, but, on the contrary, I have paid into the State's treasury forty-five thousand dollars during the past two years. By way of recapitulation, I have, within the past five years, paid into the State's treasury $81,000. By the first day of January I will have cancelled $36,000 worth of State bonds. Built the Wetumpka branch railroad at a cost, as estimated by the engineer, Capt. R. T. McDonald, of $12,921.20; and made repairs, as estimated, on penitentiary walls, buildings, &c., of $12,200.

The law on transportation of convicts to the penitentiary for many years past, prior to first of March, 1879, taxed the State to the amount of twelve to sixteen thousand dollars annually. Under the new law enacted at the last session of the legislature, giving

the Warden authority to transport all prisoners from the various jails of the State to the penitentiary, which took effect the first of March, 1879, has cost the State $328.65, or nearly $1.70 per capita. Under the old law it cost the State about $59 per capita—thus making a difference in favor of the State of about $1,000 per month.

Several of the old contracts made shortly after I came into office will expire during the present year, and I am now making contracts at $8 per month per capita, from which our revenues will be very largely increased; and should the legislature decide at the coming session to so amend the law as to sentence all felons to the penitentiary, it will result in a revenue to the State of seventy-five to one hundred thousand dollars annually.

You are, gentlemen, well acquainted with the results and workings in all the branches of this institution outside of the walls, therefore it is unnecessary for me to call your attention to any other than the following tables, to-wit: A. B. C. D. and E., which fully explains themselves, and making a full expose of our finances, &c.

For your most courteous and efficient co-operation in every thing that pertains to the welfare of this prison, and to all the officers herewith connected, I return my sincere thanks.

Very respectfully,

Your obedient servant,

J. G. BASS,

Warden.

CHAPLAIN'S REPORT,

FOR THE YEAR ENDING SEPTEMBER 30, 1880.

To the Board of Inspectors of the Alabama Penitentiary:

GENTLEMEN—I am much pleased to know that I have the honor and satisfaction of reporting to you that, after much thought and careful investigation, we have come to the conclusion that the present system is as good as can be effected for the spreading of scriptural holiness, the purifying of character, the elevation of morals, the edification of souls, and for the preparation for the future and eternal destiny among and for the convicts of the State prison.

We have Divine services every Sabbath; at these services we make an honest and faithful effort to distribute God's Word, both by reading and expounding the Holy Scriptures; and it affords me much pleasure to say that I have seen among those who are now suffering the penalty of a broken statute, some made to rejoice in the blessed hope and comforts which are only found in the Gospel of Jesus Christ. Since our connection with this prison we have been more fully convinced that many a Waterloo is fought in the human heart, where no eye can see but God's eye; and, that there are many heroes worthy of immortal renown who wear no chapter or crown in this world, but shall be made, through the Gospel of Christ, for the life to come, worthy of a crown which shall be braided by the hand of God, and will sparkle with diadems when the stars are dead. Our visits to the prison have not been few; and our pastaral work has been attended to. We have especially visited the sick, and prayed with the "spirits in prison." We have religious papers, tracts, periodicals and books of general reading, which we distribute among the convicts.

The prisoners manifest much interest in the religious services, and are doubtless much edified and benefitted.

The Warden and other officers adorn and beautify these Gospel feasts with their presence, and have rendered great assistance in aiding me to discharge the duties of my office, for which I thank them most sincerely.

For the Supreme Governor of the Universe to pour out his richest blessings upon the State and its Institutions, I shall ever most earnestly pray.

With much respect,

I am your obedient servant,

J. B. ANDERSON,

Chaplain.

PHYSICIAN'S REPORT.

To the Hon. Board of Inspectors of Alabama Penitentiary:

GENTLEMEN—Again I have the greatsatisfaction to report a healthy and comfortable condition of the Alabama State Prison. For the past two years there has been twelve deaths inside the walls, and outside one case of suicide. Not a single death has occurred from disease contracted inside the walls of this institution. The deaths are as follows:

James B. Sweatman, from Madison county, dropsy.
Horace Cade, (colored,) Dallas county, scrofula.
Mary Orr, (white,) Dallas county, tertiary syphilis.
Silas Johnson, consumption, brought from iron mines.
J. Allen, suicide.
Andrew Brooks, general lubercartoris, brought from coal mines.
William Ray, general debility, Lauderdale county.
Joseph Heber, articulos rheumatism and dropsy of brain, from coal mines.
Green Jordan, from Eureka mines.
Cæsar Lewis, " " "
Charles Simmons, " " "
Spencer Colly, phthisis pulmonalis, brought from coal mines.

We have been entirely free from all endemic causes for disease, and a more healthy condition of the prisoners could not be expected or desired.

To all officers of the Institution I tender my respects and congratulations for an honest discharge of their respective duties, and for their co-operation in assisting me in carrying out the duties assigned to my special care.

Respectfully,

McN. CRAWFORD, M. D.,
Physician to Penitentiary.
